

PREPARED, PRODUCTIVE & PROFITABLE PIGLETS

PIGLET FEED & CONCENTRATES

DESCRIPTION

The Piggy concentrate and complete feed range are specifically formulated to meet piglets' requirement for easily digestible, palatable and nutrient dense first feeds so that they may successfully learn to eat, develop their gut and optimise growth.

The feed and concentrates are based on highly digestible cooked cereals, milk products and other specialty ingredients of the highest quality.

ADVANTAGES

- Available in complete feed or concentrate form.
- Concentrates empower home-mixers to produce their own high quality piglet feed.
- Higher lactose to crude protein ratio to decrease the risk of diarrhoea.
- Develop a healthy appetite without challenging the gut.
- Enhance feed intake, palatability and ADG.
- Optimise future pig performance.

USEAGE

Piggy 1- 50 % inclusion
Piggy 2- 30 % inclusion
Piggy 3- 5 % inclusion
Feed according to optimal cost:gain for the entire nursery phase and according to customised feeding programmes as recommended by our qualified swine nutritionists.

SERVICES

Our team of experienced swine nutritionists assist with feed formulation and development of customised piglet feeding programmes for the entire nursery phase. We provide on-farm technical support and work with you to achieve prepared, productive & profitable piglets.
